The smart toilet evolution

B2

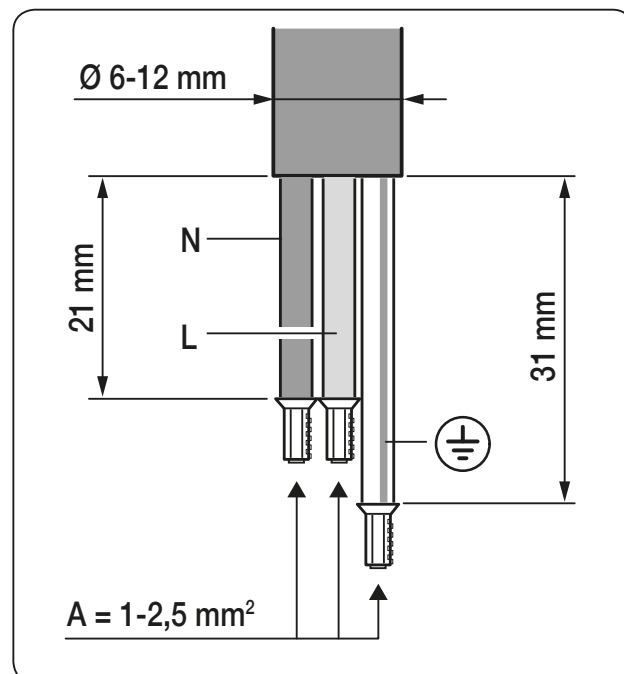

Diagram illustrating the upper compartment of the storage box. The compartment is labeled "UPPER". It contains a control panel with three circular buttons and a row of five smaller buttons. Below the control panel is a row of three slots: a circular slot on the left, a rectangular slot in the middle, and a slot on the right containing a set of tools. A manual titled "ELECTRIC MOTOR CYCLES MANUAL" is placed in the background.

The diagram shows two scenarios for removing the battery. On the left, a hand is shown pulling the battery out of the device, which is still inside its protective box. This is marked with a red 'X' in a circle, indicating it is incorrect. On the right, a hand is shown pulling the battery out of the device, which is now out of its box. An upward arrow indicates the direction of removal. This is marked with a green checkmark in a circle, indicating it is the correct procedure.
